U.S. TAXES DOWN FOREIGN RAT HOLES

By Stanley MacDonald

We note that the Heap Big Man that occupies the White House down in Washington, while prating about his alleged economy in government on one side of his political mouth, and lambasting the spending proclivities of the Democrats on the other, has just submitted to congress another of his very high budgets -- in fact one of the highest national budgets of all time -- and among other things is asking Congress to grant him a cool billion dollars of the taxpayers' money to slather around the world in unlawful ultra vires spending, a large part of it to go in direct aid to the several outright Communist countries as in the past, and whom he knows we will ultimately have to fight in what may prove to be a war of utter annihilation.

This, indeed, is a strange situation, particularly as we recall the patriotic and highly emotional promises the Great Man stepped aside to make as the coveted mantle of Presidential Authority was being draped around his shoulders when he took the oath of office at the close of his initial campaign. For one brief moment on that important occasion he felt his grave responsibility to the American people and gave evidence of being a man. But the moral stamina to respond to that patriotic impulse and abide that solemn promise did not seem to be in him, for as soon as the ceremony was over he promptly forgot his promise -- the resolve he had made with his hand upon the Bible -- submitted to the pressure of his so-called aids, and from that time on has been following the great, broad road to the left.

Of course that sort of thing would never have been permitted in the days when men were men and we lived by the precepts of the Constitution; but since the Augean Stables of the State Department have never been cleaned of their accumulated filth since Franklin Delano packed it with Reds from across the pond in the early days of his administration, we can look for almost anything to happen in the land we love and the country we call our home.

At first blush the foregoing may sound like a little idle bombast. But when we reflect that it was only a comparatively few short years ago that we shipped the paper, ink, and plates to Communist Soviet Union to run off whatever currency she might require to avoid an impending collapse, recently estimated at many billions of dollars and apparently growing ever larger; and when we further stop to consider that during the past 12 years, according to statistics from the Library of Congress in Washington, Communist Albania has been given over 20 million of our good American dollars, Communist Czechoslovakia over 185 million and over 29 million in credits, Communist East Germany over 17 million, notwithstanding they still refuse to surrender the nine American fliers they are holding in violation of international law and common decency, Communist Hungary over 17 million and over 15 million in credits, notwithstanding their ruthless slaughter of thousands of Hungarian boys and girls in their recent ill-starred

ATTLEE SOUNDS OFF AGAIN

Here is a picture of Clement Attlee taken at the Presidential Government House balcony in Madrid, Spain in 1937. At this time the Communists were still in control of Spain. Shown in this picture with Attlee are Gen. Jose Miaja, commander of the Communist troops, Palmiro Togliatte, leading Italian Communist, and Marshal Tito, Communist dictator of Yugoslavia. Also shown in this picture is Commissar Anton of the Communist Army, and, as late as 1950, he was head of the Spanish Communist Party. Note Attlee giving clenched fist Communist Salute. This was during the war between Gen. Franco's army and Communist forces from 22 Countries. This war cost a million and half lives. The International Brigade (Communist) published this picture in their official publication "Our Fight" along with a handwritten letter from Attlee from which we quote: "I should like to give my best wishes to all the Brigade and especially to the English Company. I assure them of our admiration and will try to tell our Comrades at home of what I have seen. Workers of the World, Unite!" So this is Clement Attlee now being entertained and honored in the U.S. by groups who pay him \$1000 a night to condition us for Communism. Some people in England think U.S.A. stands for United Saps of America.

strike for freedom, Communist Poland over 365 million and 88 million in credits, and Communist Yugoslavia over 789 million and over 55 million in credits, to say nothing of the many gratuitous handouts to the rest of the nations, making an overall total of over a billion and a half of the American taxpayers' money sent whizzing down the drain to bolster the shrinking economy of half a dozen ultra-Communist countries across the eastern part of Europe, all of them avowed enemies of the United States, it is really no wonder that careful statisticians are now estimating that at our present rate of spending it won't be long until we will have spent our own nation bankrupt, thus rendering ourselves a soft push-over for the several Communist nations of the world.

And now the said Big Man wants still another billion to slosh around among the nations, in a continuation of the same wicked, nonsensical, and utterly illegal, diabolical, and satanic program.

And so again we wonder, how long will America stand, how long will her bul-

works keep, how long will her coffers remain, how long will her patriots sleep... F.D.Roosevelt's spending was frightening as he raised the National debt on the taxpayers. Truman proved to be more extravagant. During his last year as President, his operating expenses of the White House were \$2,467,000. Eisenhower, who would have you believe he is economizing, spent during the fiscal year ending June 30 to operate the White House \$5,013,750. This does not cover many extra services charged to other departments such as two helicopters paid for and maintained by the Marine Corps, and the luxury plane "Columbine" paid for by the Air Force. And he has two launches paid for and maintained by the Navy. When Woodrow Wilson took office the National debt was one billion. Today in spite of efforts to prevent the taxpayers from learning all, the debt is around 300 billion - the interest alone about 8 billion a year.

Close your eyes, stop up your ears so you won't hear the balloon when it bursts.

WORLD GOVERNMENT PLAN

CLEMENT ATTLEE IS HE SOCIALIST OR COMMUNIST ?

Clement Attlee, former British Prime Minister, spoke at Westfield, N. J., Feb. 18, and again in Union on Feb. 23, at the Newark State College. Both meetings were well attended and sponsored by people who are regarded as respectable Americans.

Attlee prides himself as being a Socialist. We ask the reader to examine this article and decide, is he a Communist ?.

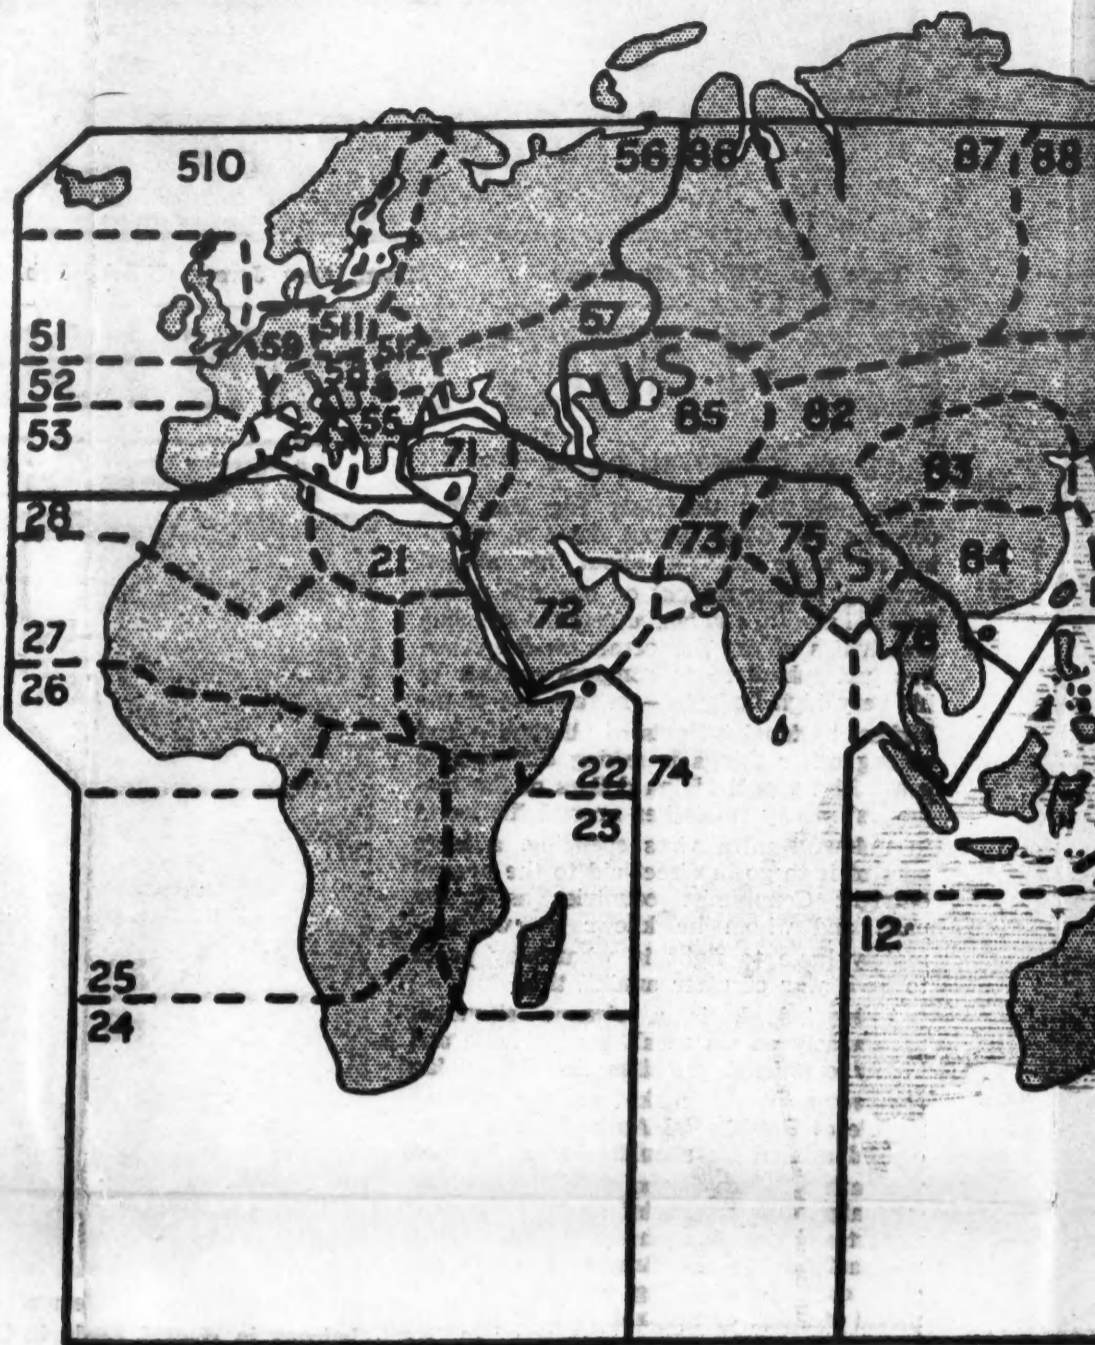

Newspapers reporting his speech state he called on the U.S. to have closer contact with Communist Soviet Union. He said the attitude of having nothing to do with Communists is wrong; that we must learn to get along with Communists; that basically they have the same aspirations as we for a better life.

Attlee called on the U.S. to recognize Communist China. He said "Like Western European Countries America will follow the road to Socialism."

In Westfield, Attlee was sponsored by the Brotherhood Committee in Conjunction with the National Conference of Christians and Jews as observance of Brotherhood Week. The reader will notice how apparently harmless organizations interlock with Marxist-groups. After Attlee had called for establishment of World Government, a man in the audience asked how best to proceed. To which Attlee replied: "Organize groups of business and professional men such as real estate men, lawyers, etc." He was then asked from the audience how they proceeded in England. Attlee stated: "In England we work through the WORLD ASSOCIATION OF PARLIAMENTARIANS FOR WORLD GOVERNMENT." Now gentle reader, study this map reproduced from the original published by the World Association of Parliamentarians for World Government.

The New York Sunday News, Sept. 26, 1954, reports on Attlee's return to London from an extended trip to Soviet Union and Communist China. At the airport he stated to reporters: "The big difficulty in the Far East is Formosa with Chiang Kai-shek, and the sooner we get rid of that Nationalist Government the better it will be." General MacArthur stated if Formosa is lost to the Communists, our defense line will drop back to Hawaii.

In May 1953, Attlee stated in Parliament: "It is doubtful if any Americans should be present when the Korean peace truce talks are held." He also urged that the U.S. do away with the Constitution.

INVALID ALLEGATIONS

By Robert Edward Edmondson

"The Masters of Deceit" who have tried again and again to bar the mails to publications allegedly "using mental injury to destroy a racial or religious group", excited by bomb scares and increasing southern integration antagonism, are again pressuring Congressmen to enact a prohibitory genocide law against such publicity notwithstanding the United States has refused to sign the "UN" subversive Genocide Pact.

THEY accuse militant Americans of being "HATE MONGERS", whereas they themselves are historically branded the most "implacable" haters of all time, which invalidates such allegations.

THEY call patriotism "a lot of nonsense" and genocidal, whereas they boast of themselves as being "a distinct nationality" of supersolidarity and superiority, refusing to assimilate into Americanism.

THEY charge crusading patriots with being seditionists, whereas the historical record exposes them as the most seditious group in nations wherein they live, and from which they have been repeatedly expelled.

THEY brand active opponents "mentally ill" and "crackpots of the lunatic fringe", whereas their own official records admit that "most of them are neurasthenic and hysterical" with dementia tendencies.

THEY deny they are communistic, whereas they boast that the Russian Bolshevik Revolution was promoted by them physically and financially.

THEY eulogize Democracy and would socialize the United States, whereas history shows that Democracy Government is totalitarian despotism, and was condemned by the Founders of the American Representative Republic.

THEY constantly denounce "Anti-Semitism", whereas their leaders concede that their own actions cause it.

THEY claim to be refugee-persecuted religiously and racially, whereas they aggressively refueled a million Arabs from their Palestine homes.

THEY deny being an economic monopoly, whereas this appears in their published literature: "When we sink we become a revolutionary proletariat, and when we rise there also arises our terrible power of the purse".

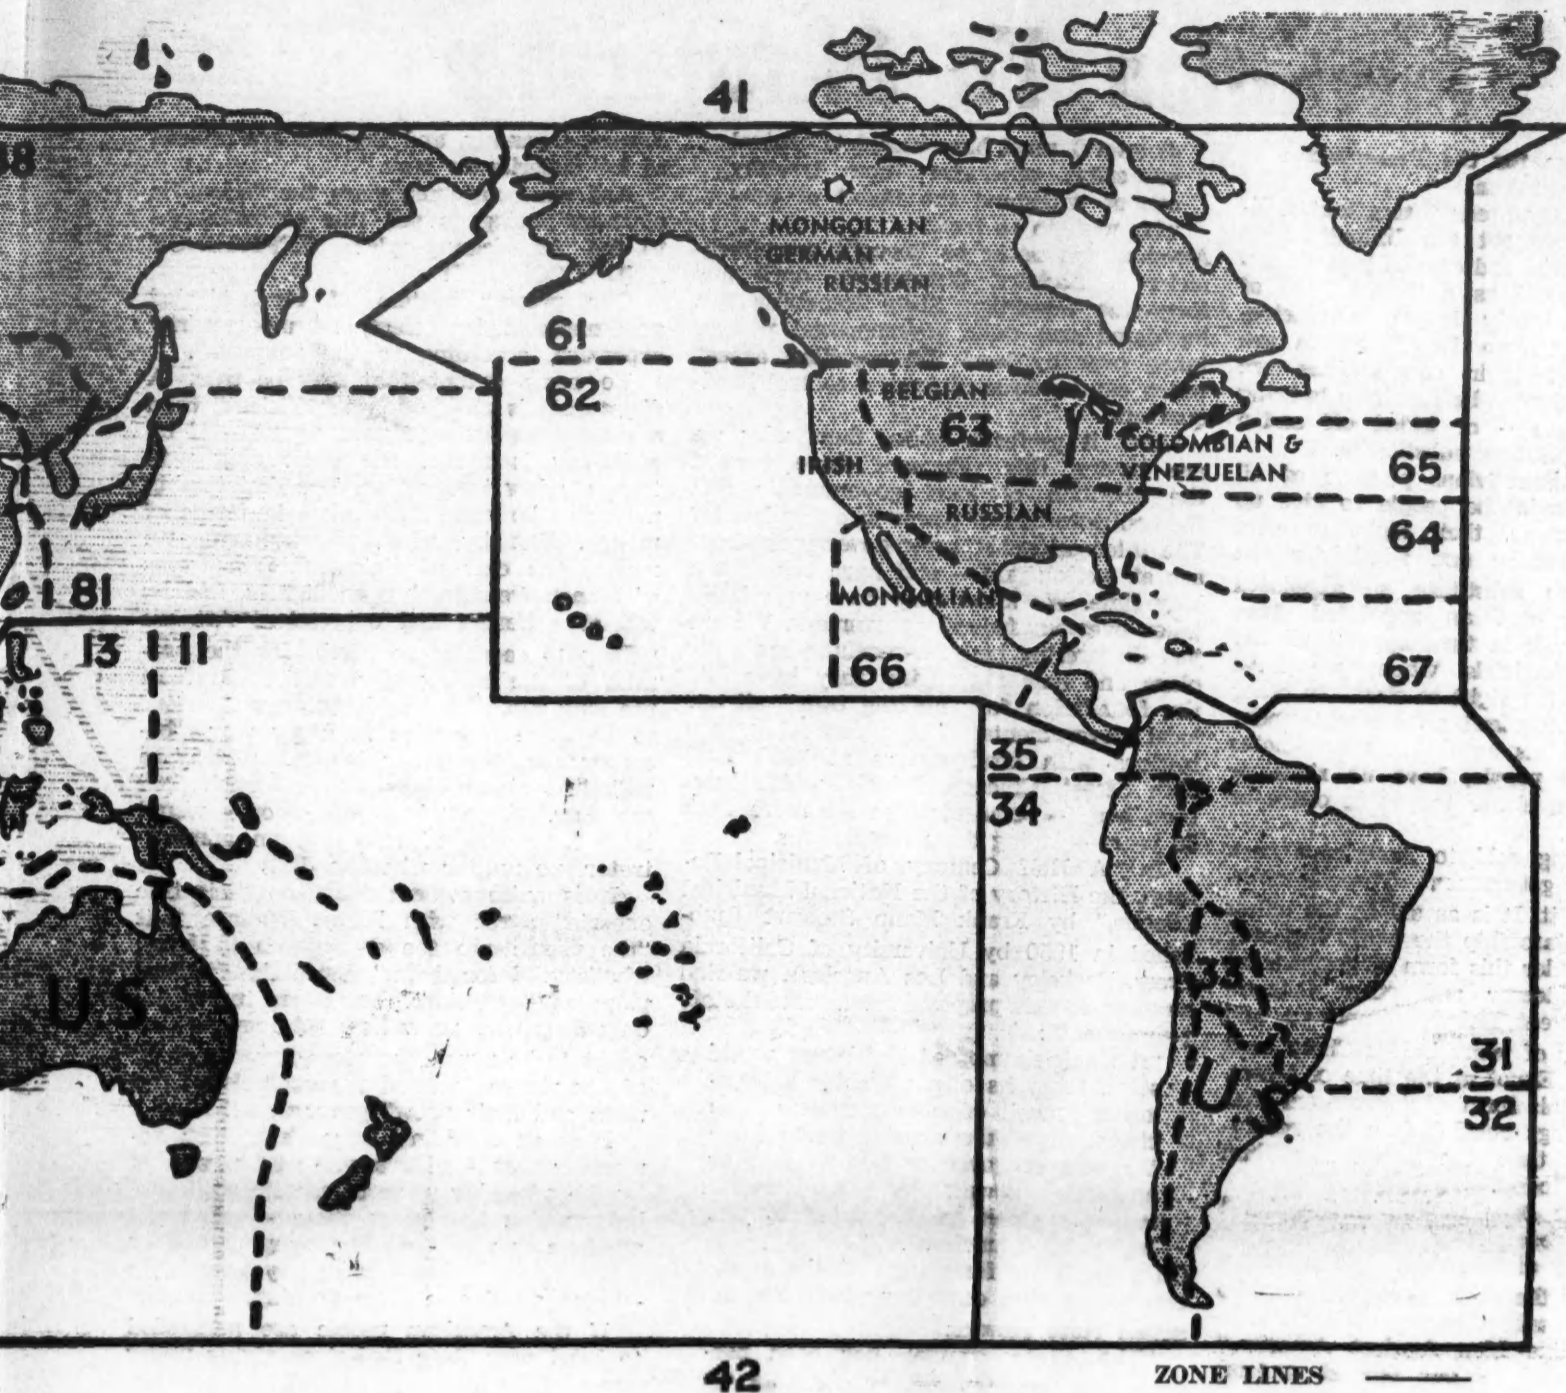

THEY proclaim themselves free speech devotees, whereas their advertising domination of The Press and Radio subverts such freedoms.

THEY put themselves in the absurd and untenable position of trying to ban by law the emotional intangibles of thought, feeling, taste, prejudice, inherent and inalienable personal liberties - which repealed the Prohibition Amendment; whereas overt ACTS only are subject to legislative and judicial jurisdiction.

THEY ceaselessly prosecuted the "no race-color-creed discrimination" civil rights code alleging violation of Amendment 14 to the U.S. Constitution; whereas thereby their own minority itself is discriminating against and denying to U.S. individual citizens the freedom of choice liberty guaranteed by that very Amendment, to majorities as well as minorities. Just how SILLY can they get?

ALIEN TROOPS TO POLICE U.S.

This map, adopted in 1952 in London by the WORLD ASSOCIATION OF PARLIAMENTARIANS FOR WORLD GOVERNMENT, shows what alien troops would occupy and police the six regions into which the United States and Canada would be divided.

The ruling body or World Parliament would consist only of appointed members. It would reflect population-strengths; so

Asia would dominate. There would be a World Director, 8 zone directors and 51 regional directors. None of the zone or regional directors would ever serve in their own countries. So an alien would command troops stationed in the U.S. and through them enforce World Government law, and prevent Americans from "sheltering behind national allegiance".

Common Sense Answers Smears

The New York Daily News, regarded as the most pro-American paper in New York City, allowed David Burk to run five articles smearing pro-Americans. Among those American patriots the article attempted to smear was Benjamin H. Freedman. These articles misquoted Mr. Freedman in such a way that Mr. Freedman has sued the Daily News for \$200,000. Several years ago the Jews picketed the News for several months and withdrew most of their advertising. Now the Jewish advertising varies from ten pages on week days to 70 on Sunday.

The following letter was mailed to the New York News in reply to the smear against Common Sense.

Mr. F. M. Flynn, Editor
New York Daily News
220 East 42nd Street
New York, New York

Dear MR. Flynn:

This letter is in reference to the series of five articles published in the Daily News, January 20th to 24th, inclusive.

Quite a number of your readers have expressed amazement at the appearance of such smear articles in the New York Daily News. They, like ourselves, felt that such a tirade is far below the standard of your paper. There are many false statements in this series that it would be no surprise to find such in the New York Post or other blatant publications. Apparently there has been some unusual pressure brought on some department of your worthy paper. In fact, upon investigation, we learned that the man who wrote the series, David Burk (or Burkowitz) cooperated with the Anti-Defamation League in preparing this material. You no doubt know the A.D.L.'s pro-Marxist, anti-Christian record. We are primarily interested in gross mis-

statements as to Common Sense in the Jan. 24th article, which states the Un-American Activities Committee report that "Conde McGinley of Union, New Jersey, was making at least \$30,000 a year out of Common Sense".

We enclose photo copy of short article which appeared in the New York Telegram and Sun, Wednesday, December 15, 1954, which states:

"Washington, Dec. 15. -- A procedural battle broke out in the House Un-American Activities Committee today over a proposed report recommending that the Justice Department prosecute alleged 'neo-Fascist' groups under the Smith Act. Copies of the proposed report were leaked to reporters yesterday.

"Rep. Francis E. Walters (D., Pa.) who will take over the committee chairmanship next month, denounced the whole procedure today. He charged that the committee had held no hearings relating to the report and had not discussed the subject in executive hearings. He said he had not seen the report. Mr. Walters noted that committee rules bar the release or disclosure of any report until after its approval by a

Metropolitan Area Government Invitation To Dictatorship

By Committee for the Preservation
of the Constitution.

City and county areas throughout California and throughout the United States are being pressured and cajoled into accepting what is touted as a "new" form of government, deceptively known as Metropolitanism or "Home Rule." States are being told that their constitutions are "out moded" and must be rewritten to bring them up to date -- or killed off and a "modern" constitution substituted.

The open and obvious purpose of all this is to persuade the people to give up their voting power, their right to elect the men who make and administer the laws .. and to substitute an appointed State Manager and an appointed Area Manager who will in turn appoint all the administrative officials whom we have heretofore had the right to elect. In other words it is centralized government under a dictator and his appointed subordinates whom we, the people, have no right or power to touch, either to put in office or to remove.

This is being sold to Americans as a "new" form of government. There is nothing new about it. It is as old as the oldest tyranny or dictatorship the world has ever seen. It was under this form of government that Nebuchadnezzar and other Oriental kings ruled Great Babylon hundreds and even thousands of years before Christ, and Pharaoh ruled Egypt at the time of Moses. It was under this form of government that the French kings ruled before the revolution and it is thus, the Soviet Presidium rules Russia today.

We are the only nation in the world that has ever completely freed itself from this appointive dictatorship. We fought a Revolution for the right to elect those who govern us. Rosalie Gordon, in her excellent book, "Nine Men Against America," (\$3.00) has said of our federal system:

"This was the first and only system of government in history which made impossible the growth of an all-powerful central government -- be it republic, monarchy, democracy, or dictatorship. . . They (the would-be

dictators) must have complete central authority; otherwise their tyranny cannot withstand the revolt of men who wish to be free."

America can never be brought completely under a Socialist dictatorship until our forty-nine Sovereign State Republics are liquidated and their governmental powers taken over by local "Metropolitan areas" which can be directed from a central headquarters.

Isn't it perfectly plain, then, why we are having this vehement drive toward the abolition of local governments and the centralization of power in a few hands? The internationalist super-government boys are at work again -- and have been for a long time. We know they have practically taken over our federal government. We are just discovering how far-reaching are their plans and how thoroughly they have laid the foundation for "making over" all our local governments. There are 22 organizations with headquarters at 1313 East 60th Street, Chicago, Illinois, which have been busy -- some of them for more than 50 years -- laying these foundations.

In "A Half Century of Municipal Reform, the History of the National Municipal League," by Frank Mann Stewart (published in 1950 by University of California Press, Berkeley and Los Angeles), we find on page 80 this proposal for a "model state government":

"A single-chambered legislature would select from its own members a legislative council of nine members. The chairman of the council would have the title of governor but no veto or appointive power. An administrative manager would be appointed by the legislative council . . ."

On page 39 is foreshadowed the eventual transfer to the central government of all actual state powers:

"The State control has been preserved, but its exercise has been taken from the legislative and entrusted to the administrative officers, wherever it has been felt that its preservation is absolutely necessary."

The more centralized governments of

France, Germany, and England are praised as far superior to ours.

And what arguments are the "scientific planners" using to sell this centralization to the American people? EFFICIENCY AND ECONOMY!

Our present system of local elected governments is inefficient, and unnecessarily expensive, according to the "experts".

To some extent that may be true. A dictatorship is always more "efficient" than a republican form of government -- if by efficiency is meant the swift ability to translate law into action. The dictatorship may also be more economical in terms of money. But by what measure can we reckon the cost of dictatorship in terms of human freedom, human dignity, and its toll of suffering and oppression! Are we willing to sacrifice so much, for the promise of the saving of a few dollars? In the long run, dictatorships always turn out to be more expensive in every way because unlimited power inevitably leads to unlimited abuse of power, and unchecked spending. (Remember, the people would have no means of removing an administrator, no matter what he did!)

It is quite evident that the "scientific experts" agree with Henry Wallace that "the people are too d--n dumb to know what's good for them." Since the "trained planners" consider themselves to be the only ones who know how this government ought to be run -- therefore it is the duty of the people to hand the control over to them and their "new" government!

It is an Aladdin's lamp deal! You remember that Aladdin's wife was persuaded by the scheming uncle to exchange the old lamp which had given them -- and could continue to give -- all that they needed or wanted, for a glittering, shiny new lamp -- which could give them nothing.

If the American people are persuaded to hand over their God-given rights under our God-inspired Constitution, in exchange for the glittering, empty promises of the scheming "experts" they will prove Henry Wallace was right. And they will deserve the Communist-dominated, One-World Government they will get.

WHAT IS METROPOLITAN GOVERNMENT

By E.G.Grace

We urge every public spirited citizen to order this book - - - - - only 50 cents. This book more fully explains this dangerous move which will take the management of your city or county government away from the people and place it in the hands of diabolical internationalists known as "1313". They are doing away with States Rights and centralizing the power in Washington, and now they are working a clever plan to take away the local power of cities and counties. If you don't want your city and county run by out of state Marxist bureaucrats, investigate the City Manager movement.

To show you how ridiculous this statement is, Common Sense is published by Christian Educational Assn. and I, as Editor, have given thousands of dollars (all I had) and devoted full time for thirteen years without any salary whatever, and for years I have made no income tax report.
